

### THE PARTICIPANTS

**BRENNEN  
MCKENZIE  
VMD**

Adobe Animal Hospital and past president of the EBVMA

**SHARYN  
ESPOSITO  
DVM**

Smokey Hill Animal Hospital and Bel-Rea

**ERIK  
FAUSAK  
CVT**

Bel-Rea and EBVMA member

## Why EBVM?

**INCREASED  
FLEXIBILITY**

Don't just practice what you've been told, explore new avenues with science behind you

**ALLEVIATES  
BIAS**

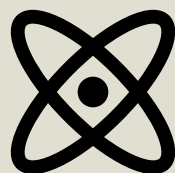

EBVM reduces self-limiting boundaries present in all practitioners

**BETTER  
PATIENT  
CARE**

knowing what we know and don't know for better informed consent

## What is EBVM?

# APPLICATION OF SCIENCE IN CLINICS

Systematizing how we mitigate our bias, and have confidence in what we know and don't know. Take the haphazard out of clinical application of science.

## Talking points

- EBVM does not take the art out of medicine, the art is in client communication.
- Lack of evidence shouldn't demoralize, it tells us information gaps and where clinical experience is vital.
- The entire veterinary support team and technology will be needed to move forward, like in human medicine.
- Owners prefer truth and don't mind uncertainty.
